WESTAWAY

SAILS

GAFF MAINSAIL

Panels in-house computer designed and cut.

Tapered non-shattering and anti twist fibre glass battens.

Leech line with cleats at clew and each reef.

Anti-chafe 3-step stitched seams.

High quality Rutgerson pressed in rings.

Generous quantity of reef tie eyelets.

Westaway Gaff and traditional sails are computer designed and cut as standard but can be 'lofted' on the floor in the traditional manner upon request. Soft finished fabric is used for ease of handling. Coloured fabrics are available and UV resistant fabric is also available if the mainsail is not usually covered. Mainsails include tapered battens, sail numbers, class insignia, tell tales, draft stripes, sail bag and optional number of reefs. The luff, head and foot can be finished to suit your requirements with external ropes, eyelets for lacing, bolt ropes or slides. Trust Westaway for a traditional look and feel with modern efficiency.
